Description

A One-of-a-Kind Oasis This luxurious well appointed Spanish Colonial home may boast a prestigious location in a secure neighborhood but it is the astounding attention to detail that every discerning buyer can appreciate: colonial arches, boveda domes, viga-beamed and open-wood ceilings, aged colonial-style-doors, grand rock walls, plentiful cantera, colorful talavera and tejamanil roof details which take your breath away with their never-ending array of sensory delights.

As you are ushered through the grand circular driveway leading to the central courtyard which surrounds the pool and majestic water feature of La Virgin, you will be transported into Timothy Wachter's (builder) stunning Hacienda style home (also designed by his sister Theresa) which combines the best of both indoor and outdoor living spaces on this Exceptional Property. Inside, the living room and adjacent dining area are nothing short of grand and showcase an unusually long and beautiful boveda and rock wall. The kitchen is also home to a large boveda, commercial-grade appliances and work areas, colorful talavera tile and a warm, old Mexico feel. Just off the kitchen is a multipurpose room which is currently being used as a spacious pantry and office. All overlook the impeccably designed gardens which feature ponds, creeks, fruit trees and other outdoor entertainment areas. The master suite, located on the ground floor and overlooking the pool and garden, is a work of art, particularly the bathroom. It features another oblong boveda, rock wall and spa-like tub with surrounding plants and is adjacent to a large dressing room. The other two bedrooms on the ground floor include their own bath, each featuring a unique style but still congruent with the rest of the house. The large loggia (outdoor covered patio) opens out into the garden and includes a bar and fireplace with chimney. The expansive rooftop terrace hosts multiple seating areas, views to the surrounding mountains as well as a complete kitchen with pizza oven, smoker, grill and refrigerator. Upstairs houses the casita, which has a private entrance, terrace, sitting area, office nicho, tejamanil (woven wood) ceilings and wood floors. And of course, you'll enjoy lounging beside the pool, the gem around which the ground floor courtyard is built. Other amenities include a wine closet and tasting area just off the dining area, double car garage with full laundry area and a pressured, purified water system.
